

# SciComm for Grad Students with the GC Science Communications Academy

Inayah Entzminger

PhD Program in Biochemistry, The Graduate Center, CUNY

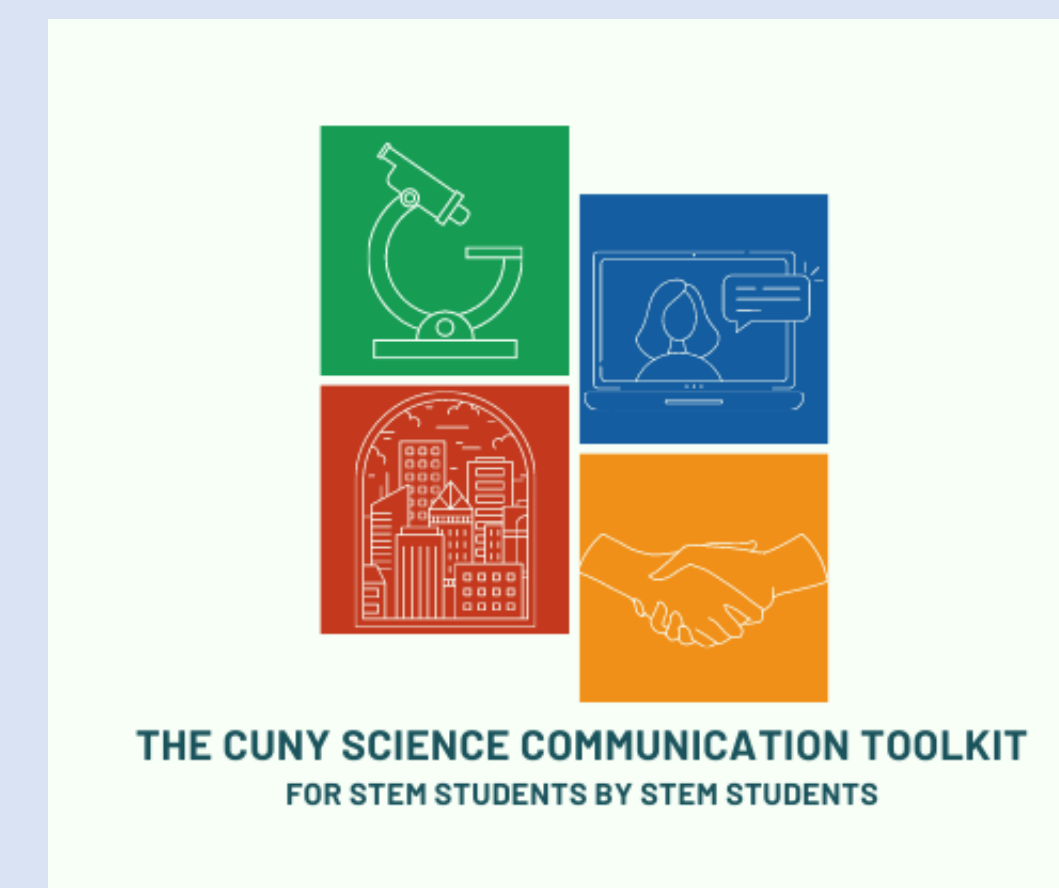

## ABSTRACT

The Graduate Center Science Communication Academy at the City University of New York is a hub of information on resources and events focused on science communication. The Academy's overall mission is to increase science communication skills in GC graduate and postdoctoral students, staff, and faculty. The program includes a Science Communication Fellowship developed in partnership between the Graduate Center Sciences and the Office of Career Planning and Professional Development, and the Office of Communications and Marketing.

## "Communicating Your Science" Event Series

## The CUNY SciComm Toolkit

### How to use this toolkit:

This toolkit is divided into four buckets corresponding to different areas of science communication, each with its own set of goals, resources, tips, and tools to help you communicate your science to groups of all backgrounds and in all situations. Please check out the resources and come back as needed.

- Professional Communication
- Media Engagement
- Community Outreach
- Promoting Diversity, Equity, and Inclusion

#### Professional Communication

Speaking about your research with fellow scientists can be tricky and stressful. Figuring out the correct level of detail while also making your presentation, paper or proposal interesting and engaging can be difficult to balance.

Here, we have some tips and tools for scientific writing and presenting, as well as networking with other scientists, to help you navigate the professional realm of science communication.

- › Communicating at Conferences
- › Non-Conference Networking
- › Writing Grant Proposals
- › Writing a Scientific Paper
- › Communication within Collaborations
- › Communicating with Industry Professionals
- › CV's and Application Documents
- › Building a Website

## Science Communication Fellowship

- Social media
- Podcasting
- Educational outreach
- Capstone project

The Office of Career Planning & Professional Development
